WHO Region Information

About this visualization

This is is basic, functional visualization created by Vickie Gray for a personal [portfolio](#). The data is real global COVID 19 Vaccination data from the World Health Organization (WHO).

The visualization is meant to be functional, and takes into account visual accessibility and efficiency. It includes a drill-down matrix of WHO Region and country, a WHO Region slicer, and the stacked bar graph includes a zoom slider to compare smaller bars. This is an example of a basic visualization I would bring to a client for further
